## What is MEHA?

The Montana Environmental Health Association is an affiliate of the National Environmental Health Association (NEHA). In Montana, environmental health specialists — called Sanitarians— promote clean food, water, air, and health conditions in communities. We help business comply with regulations by conducting inspections, consultations, enforcement, and education.

## What does MEHA do?

Our mission is to maintain and improve the standards of performance of professionals in the field of Environmental Health in Montana through education and outreach.
